This is not only Nick's first compilation for the clubbing institution since 2001, but also his first full solo outing over two CDs for Renaissance.

Darin: "There aren't really words to describe how special this moment is for me. I spent years and years working on music and finally achieved a long-term goal. On top of that, my track appears on a mix CD by two of my biggest musical inspirations."

'Shine The Light' will be out January 28 on the Renaissance Masters compilation. Highlights from the album will be released by Hope Recordings in February 2013.

Darin's appearance at White Wonderland comes after a number of other high profile bookings in 2012. The shirts are now available at <http://store.perspectivesdigital.com>. You can get 10% off using promo code "10OFF" or 15% off your entire order with "15OFF" when buying two or more.
